

Impact-Resistant Clear Safety Glasses

These safety glasses shield eyes from impacts, dust, and splashes. They feature a transparent frame and lens for maximum visibility and an adjustable strap for a secure fit.

Product Overview

Impact-Resistant Clear Safety Glasses

These clear safety glasses are engineered to protect eyes from impacts, dust, and liquid splashes in demanding work environments. Featuring a high-quality PC lens and a durable PVC frame, the design ensures maximum visibility and long-term reliability. The glasses include indirect ventilation to minimize fogging and an adjustable strap to provide a secure, comfortable fit for various face shapes.

Technical Specifications

Lens Material	Polycarbonate (PC)
Frame Material	Polyvinyl Chloride (PVC)
Weight	60 g

Product Details

Model Number	HS2008
Key Features	Impact-Resistant, Indirect Ventilation, Anti-Fog Design, Adjustable Strap
