

Impact Resistant Safety Goggles

These safety goggles protect eyes from impacts, dust, and splashes. Their wraparound design ensures a secure fit and broad field of vision.

Product Overview

Professional Eye Protection

These impact-resistant safety goggles are engineered to protect eyes from dust, debris, and liquid splashes in industrial environments. Featuring a durable polycarbonate construction, they provide excellent impact protection while ensuring a wide field of vision through a wraparound design. With integrated UV radiation protection, these goggles are an essential safety solution for construction, laboratory, and manufacturing professionals.

Technical Specifications

Material	Polycarbonate
Key Protection Features	Impact Resistant, Dust Protection, Splash Protection, UV Protection

Design Details

Design Type	Wraparound
