Product Overview

Professional Impact Extension Bar

This impact extension bar is engineered for heavy-duty applications, providing essential reach when working with impact wrenches in tight or recessed spaces. Constructed from high-strength Chrome-Molybdenum (Cr-Mo) steel, it offers exceptional durability and resistance to the high torque demands of industrial and automotive environments. The black phosphated finish ensures superior corrosion resistance, making this a reliable tool for long-term professional use.

Technical Specifications

| | |
|-----------------------|-----------------------------------|
| Drive Size | 3/8" |
| Material | Chrome-Molybdenum Steel (SCM-440) |
| Surface Finish | Black Phosphated |
| Manufacturing Process | Cold Forged, Precision Machined |

Dimensions & Models

Available Models

| Model ID | Length (mm) | D1 (mm) | D2 (mm) |
|----------|-------------|---------|---------|
| YT-3793 | 75 | 19 | 12.3 |
| YT-3794 | 150 | 19 | 12.3 |
| YT-3795 | 250 | 19 | 12.3 |

Applications

Recommended Applications

- Automotive repair
- Industrial maintenance
- Construction projects
- Heavy-duty impact wrench operations
