

Import and Export Customs Clearance and Logistics Services

These services facilitate agent signing of foreign trade contracts and foreign exchange payments. They also cover import goods transportation, import customs clearance, and warehousing and distribution.

Service Overview

Comprehensive Logistics & Customs Solutions

This service provides an end-to-end solution for international trade, covering both import and export customs clearance and comprehensive logistics management. By handling complex tasks such as foreign trade contract signing, foreign exchange payments, and cross-border transportation, the service streamlines the supply chain for professional buyers. It ensures goods are efficiently moved, cleared through customs, and managed through warehousing and final distribution.
