

# In-Ear Monitoring Headphones

These in-ear headphones are designed for portable audio listening. The earpieces incorporate a rounded shape to secure the headphones within the ear.

## Overview

### Professional Audio Monitoring

These in-ear monitoring headphones are engineered to deliver reliable audio performance for professional listening environments. With a balanced frequency response ranging from 20Hz to 20KHz, they provide clear sound reproduction suitable for various audio applications. The ergonomic design ensures a secure fit, making them an excellent choice for portable audio monitoring needs.

## Technical Specifications

Frequency Range	20Hz - 20KHz
Impedance	32 $\Omega$
Maximum Power Input	60 mW
Sensitivity	91dB S.P.L. at 1KHz $\pm$ 2%

## Connectivity & Design

Plug Type	3.5mm
Cable Length	1.2 m
Design Features	In-Ear, Ergonomic, Portable

## Performance Metrics

### Key Performance Indicators

<b>32 <math>\Omega</math></b> Impedance	<b>60 mW</b> Max Power
