Product Overview

Professional Portable Protection

This In-Line Portable Residual Current Device (PRCD) provides essential electrical safety for both home and industrial environments. Featuring an advanced electromagnetic structure, it operates independently of voltage fluctuations to ensure high-reliability protection. Designed for durability, the unit is built to withstand vibrations and drops while maintaining an IP67 rating against dust and moisture.

Technical Specifications

Rated Current

16 A

Rated Current

30 mA

Residual Current

Protection Rating

IP67 • Anti-drop • Anti-vibration

Ambient Temperature

-25 to +40°C

Device Type

A type PRCD

Features

Core Features

- Electromagnetic structure (voltage independent)
- Built-in TEST and RESET buttons
- Integrated power indicator
- Compatible with various European plugs

Applications

Suitable Equipment

Power Tools, Washers, Paint Sprayers, Water Pumps, Heaters, Lawn & Garden Equipment, Bath & Health Care Equipment
