

# In-Mold Bicycle Helmet with 20 Vents

This bicycle helmet features in-mold construction for enhanced durability and lightweight performance. It incorporates 20 vents to maximize airflow and keep the rider cool and comfortable.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance In-Mold Bicycle Helmet

This professional-grade bicycle helmet features an advanced in-mold construction, bonding a tough PC shell with a shock-absorbing EPS liner for superior protection. Designed for versatility, it is suitable for road racing, mountain biking, and recreational use. With 20 strategically placed vents and a lightweight 240g design, it ensures maximum cooling and comfort during long rides.

## Technical Specifications

Strategically placed vents promote airflow to keep the rider cool.

The 20-vent system ensures optimal thermal regulation during intense activity.

### Key Performance Metrics

**20 Vents**

Ventilation Ports
