

In-Mold Bicycle Helmet with Visor

This in-mold bicycle helmet provides safety and comfort for cyclists. It features a lightweight construction with multiple vents for optimal airflow and an adjustable fit system.

ADDITIONAL IMAGES

Product Overview

The streamlined design reduces wind resistance while the integrated visor provides weather protection.

Ultralight In-Mold Bicycle Helmet

This high-performance bicycle helmet features advanced In-Mold construction, combining a durable polycarbonate shell with an impact-absorbing EPS liner for superior safety. Designed for versatility, it is suitable for road racing, mountain biking, and recreational use. The aerodynamic profile is complemented by 16 ventilation ports to ensure rider comfort and optimal cooling during intense activities.

Technical Specifications

Multiple ventilation ports are strategically placed for maximum airflow and cooling.

High-impact resistant materials meet an aerodynamic profile for professional performance.

Ventilation

16 slots

Air Vents

Construction

In-mold PC shell with EPS liner

Weight

240g, 260g

Sizing & Fit

Equipped with an adjustable fit system to ensure safety and comfort for various head sizes.

Available Sizes

Size	Head Circumference
