

# Indoor Air Purifier

This air purifier is designed for indoor use to improve air quality. It filters out dust, allergens, and other pollutants.

## Product Overview

### Professional Indoor Air Solution

This indoor air purifier is engineered with a minimalist, modern aesthetic suitable for professional and residential environments. Featuring a high-efficiency air intake system with a perforated design and a top-mounted exhaust fan, it effectively improves air quality by capturing dust, allergens, and airborne pollutants. Its matte finish and compact, rounded shape allow for seamless integration into any indoor space.

## Design and Build

Form Factor	Rectangular, minimalist design with rounded edges
Surface Finish	Smooth matte

## Technical Specifications

Air Intake	Perforated lower body design
Air Exhaust	Top-mounted circular fan grille

## Usage

Environment	Indoor, Residential, Professional Office
