

Indoor Ceiling Fan with Five Blades

This ceiling fan features five blades and a brushed metal finish. It is designed for indoor use, providing air circulation and cooling for residential or commercial spaces.

Product Overview

Indoor Ceiling Fan

This indoor ceiling fan features a sophisticated five-blade design, combining a brushed metal motor housing with elegant dark wood grain blades. Designed for efficient air circulation and cooling, it is suitable for both residential and commercial environments. The balanced construction ensures consistent airflow, making it a reliable choice for maintaining comfort in indoor spaces.
