

Indoor Ceiling Fan with Integrated Light

This ceiling fan provides cooling and illumination for indoor spaces. Its multi-blade design ensures efficient air circulation, while the integrated light kit features decorative shades.

Product Overview

Elegant Indoor Climate Control

This indoor ceiling fan combines efficient air circulation with integrated lighting to enhance comfort in any room. Designed with a multi-blade system, it offers a classic aesthetic that fits various decor styles while providing reliable cooling performance. By promoting better air movement, this fixture helps optimize indoor temperature control and reduce energy consumption.

Energy Efficiency

Energy Savings Potential

P Number	Rated Power (W)	Saving/Day (\$)
1P	1200	2.622
2P	2200	5.182
3P	3100	7.486

Operational Benefits

- Produces wind chill effect of approx. 8°C
- Allows higher AC temperature settings
- Reduces energy consumption by up to 40%
- Low daily operational cost
