

# Indoor Ceiling Fan with Integrated Spotlights

This ceiling fan provides air circulation and illumination. It features four blades, a central motor housing, and three adjustable spotlights.

## Product Overview

### Dual-Function Design

This indoor ceiling fan combines efficient air circulation with integrated spotlight illumination, making it a versatile solution for modern interiors. Featuring a four-blade design with a light gray finish, the unit provides both comfort and ambient lighting. The central housing includes three adjustable spotlights, allowing for targeted illumination to suit various room layouts.
