

# Indoor Digital TV Antenna

This indoor TV antenna receives over-the-air digital TV signals. Its adjustable telescopic antennas ensure optimal signal reception, supporting VHF and UHF frequencies.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Indoor Reception

This indoor digital TV antenna is engineered to deliver a superior viewing experience by capturing Full HD and digital TV signals with clarity. Featuring a unique, compact design with a hidden traditional UHF metal loop, it blends seamlessly into modern home environments. The inclusion of retractable dipoles ensures optimal VHF reception, making it a versatile solution for accessing local broadcast channels.

## Key Features

Signal Compatibility	Full HD, Digital TV, VHF, UHF
----------------------	-------------------------------

## Technical Specifications

### Impedance

**75 Ω**  
Impedance

### VSWR Performance

Band	Max VSWR
VHF	<3.0
UHF	<2.5

VHF Frequency Range	174 MHz
UHF Frequency Range	470-862 MHz

## Design & Build

### Design Highlights

- Compact, sleek wrist-style design
- Hidden traditional UHF metal loop
- Retractable dipoles for adjustable VHF reception
