

Indoor Digital TV Antenna with High-Gain Amplification

This indoor antenna is designed to receive over-the-air digital TV signals. Its slim design features a glossy black finish and high-gain amplification for enhanced signal reception.

Overview

High-Performance Indoor Digital TV Antenna

This ultra-flat indoor digital TV antenna is engineered to deliver clear Full HD reception for local broadcast channels. Featuring a sleek, mirror-finish design, it integrates easily into professional and home environments. With its detachable high-gain amplifier, users can optimize signal strength to suit specific reception needs, ensuring a reliable viewing experience.

Technical Specifications

Frequency Range

- VHF: 174-230MHz
- UHF: 470-862MHz

Performance Metrics

105 dBuV

Output Level

3.5 dB

Noise Figure

75 ©

Impedance

VSWR

Band	VSWR
VHF	<3.5
UHF	<2.5

Power and Installation

Power Requirements	DC 5V/550mA
Power Source Options	AC/DC Adaptor, Digital Receiver

Design Features

Design & Build

Ultra Flat • Mirror Finish • Detachable Amplifier
