

Indoor Digital TV Antenna with Loop Design

This indoor digital TV antenna features a loop design for enhanced signal reception. It is equipped with adjustable telescopic antennas for optimal performance and is compatible with HDTV, VHF, and UHF signals.

Overview

Sleek indoor antenna design featuring adjustable telescopic dipoles for superior VHF reception.

High-Performance Indoor Digital TV Antenna

This indoor digital loop antenna is designed to provide crystal-clear reception of free over-the-air HDTV, VHF, and UHF signals. Featuring a sleek hairlined surface and a modern loop design, it includes a built-in amplifier and a 5G filter to minimize interference from mobile networks. It is an ideal solution for household users looking to cut the cord and enjoy high-definition local channels without monthly cable fees.

Key Features

Key advantages including built-in amplification and 5G LTE signal filtering.

The hairlined surface finish and blue power-on indicator provide a premium aesthetic.

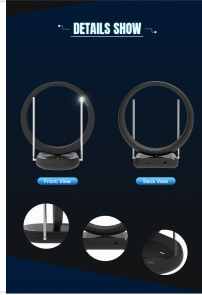

Functional Advantages

- Built-in signal amplifier for weak signals
- Integrated 5G filter to block 4G/5G LTE interference
- Swiveling large loop for directional tuning
- Retractable telescopic dipoles for optimized VHF reception
- Blue power-on LED indicator

Signal Reception

UHF, VHF, HDTV Compatible, Over-the-Air (OTA)

Product Details

Property	Specification
Model	UVR-AV540
Material	Plastic
Color	Black
Surface Finish	Hairlined
Application	Household Indoor Use

Compliance & Quality

Our products meet international safety and environmental standards including CE, FCC, and RoHS.

Recognized for design excellence and utility innovation with multiple patents.

Regulatory Compliance

CE • FCC • RoHS • REACH • RED • EMC • LVD • Prop65

Quality Management

ISO 9001:2015 Certified

B2B Services

Service Options

- OEM/ODM Manufacturing available
- Custom branding for bulk orders
- Free samples available for evaluation
- In-house quality control (IQC, QC, QE)
