

# Indoor Digital TV Loop Antenna

This indoor digital TV loop antenna receives over-the-air (OTA) digital TV signals. It features a circular loop for enhanced signal reception and adjustable telescopic antenna elements.

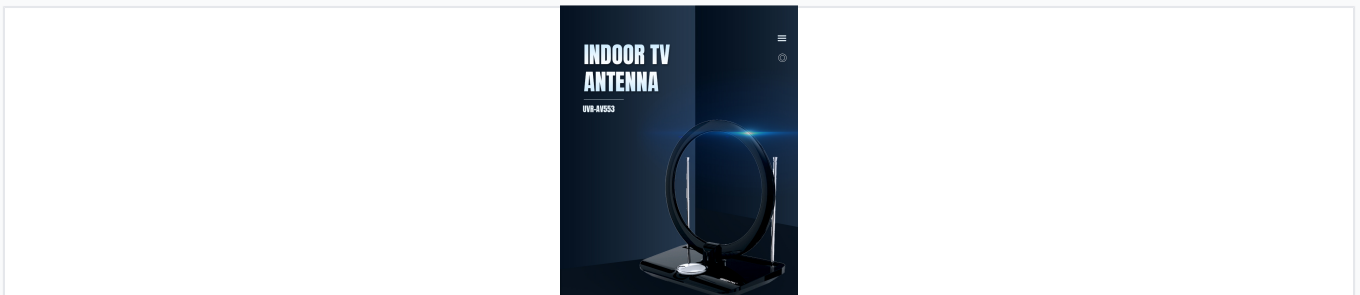

## Overview

### High-Performance Indoor Digital Reception

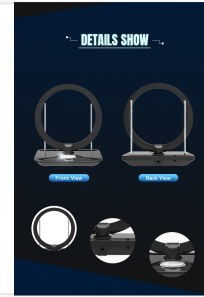

This ultra-slim indoor digital TV antenna is engineered to receive free-to-air UHF and VHF signals, allowing users to access high-definition OTA channels without monthly fees. It features a modern shiny black finish and a crystal blue power-on indicator, blending seamlessly into contemporary home environments. With integrated 4G/5G LTE filtering and adjustable elements, it ensures stable and clear signal reception for a superior viewing experience.

## Technical Specifications

Model Number	UVR-AV553
Signal Reception	UHF, VHF, Digital TV, OTA
Dimensions	192 x 121 x 227 mm
Material	Plastic

## Key Features

### Design Features

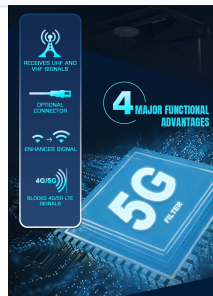

- Ultra-slim 0.5cm loop design
- Shiny black finishing touch
- Crystal blue power-on indicator
- Swiveling large loop for fine-tuning
- Retractable telescopic dipoles

### Functional Advantages

4

Major Functional Advantages

## Signal Quality

LTE Protection

Built-in 4G/5G LTE signal filter to block interference

Signal Enhancement

Yes

## Compliance & Quality

### Certifications & Compliance

CE • FCC • RoHS • REACH • RED • EMC • LVD • BSCI • ISO 9001:2015
