Product Overview

Versatile Indoor Grilling Solution

This electric BBQ grill is designed for convenient, year-round indoor cooking, making it an ideal choice for compact kitchens and small living spaces. Featuring a high-quality non-stick surface, it ensures easy food release and simplifies cleanup. With adjustable temperature controls and a removable drip tray, this appliance promotes healthier cooking by collecting excess fat while allowing for precise heat management for meats and vegetables.

Performance & Control

Temperature Control	Adjustable thermostat with multiple heat settings (OFF, 2, 3, 5, MAX)
Safety Features	Power Indicator Light, Overheat Protection
