

Indoor Electric Space Heater

This electric space heater is designed for indoor use. It features a heating element behind a protective metal grille and is mounted on a circular base for stability.

Product Overview

Efficient Indoor Heating Solution

The HHC-120SR series electric space heater is designed for versatile indoor climate control, offering a compact and portable heating solution. With three adjustable power settings and an integrated oscillation function, it ensures consistent warmth distribution throughout your personal or small office space. Enhanced with safety features like a tip-over switch and convenient remote control operation, this unit combines comfort with user-friendly functionality.
