

Indoor Flat Digital TV Antenna

This indoor flat digital TV antenna is designed for receiving over-the-air digital TV signals. Its slim, flat design allows discreet placement and features a high-gain amplifier for enhanced signal strength.

Product Overview

High-Performance Indoor Reception

This ultra-slim indoor antenna is engineered to deliver reliable Full HD and digital TV signal reception for local VHF and UHF channels. Featuring high-tech integrated circuitry and a detachable amplifier, it ensures stable performance even in challenging reception environments. Designed for versatility, the antenna supports multiple mounting options including wall or window placement for optimal signal capture.

Performance Metrics

Performance Highlights

105 dBuV

Output Level

3.5 dB

Noise Figure

75 Ω

Impedance

Technical Specifications

VSWR Rating

Band	VSWR
VHF	<3.0
UHF	<2.5

Frequency Coverage

VHF: 174-216MHz, UHF: 470-862MHz

Power and Installation

Power Supply Sources

- AC/DC adaptor
- Digital receiver power

Mounting Versatility

Wall Mount • Window Mount • Optional Base

Working Voltage

DC 5V/550mA
