

Indoor Pan-Tilt-Zoom Surveillance Camera with Night Vision

This is a surveillance camera with pan, tilt, and zoom functionality, designed for indoor use. It features infrared LEDs for night vision and wireless connectivity.

Product Overview

Professional Indoor Surveillance

This indoor Pan-Tilt-Zoom (PTZ) camera is engineered for comprehensive security monitoring and remote surveillance. Equipped with advanced night vision capabilities via integrated infrared LEDs, it ensures reliable visibility even in low-light conditions. Its versatile design allows for flexible placement on flat surfaces, making it an ideal choice for securing indoor spaces.
