

Indoor Radiant Electric Heater

This electric heater is designed for indoor space heating. It provides warmth through radiant heat with a control panel at the base for adjusting heat settings.

Overview

Efficient Indoor Heating Solution

This portable radiant electric heater features a streamlined design and is built for effective indoor space heating. Equipped with specialized halogen tubes, it provides equable and consistent warmth while ensuring durability with a long span-life. Designed with safety in mind, it includes automatic tip-over and overheat protection mechanisms.

Key Features

Design & Convenience
