

# Indoor Smokeless Rotisserie Grill Oven

This indoor smokeless rotisserie oven evenly distributes heat for faster cooking. It combines grilling and rotisserie functions in a single appliance.

## ADDITIONAL IMAGES

## Product Overview

The 98A series indoor smokeless rotisserie oven features a transparent lid for monitoring the cooking process and a non-stick grill surface.

## Professional Indoor Grilling Solution

This versatile indoor rotisserie grill oven combines advanced infrared heating technology with a smokeless design to deliver professional-grade cooking results. Engineered for efficiency, it features a powerful 1780W heating element that ensures even, rapid cooking while reducing smoke and odors by approximately 80%. With a spacious capacity to roast poultry up to 3kg and adjustable temperature controls, it provides a comprehensive solution for grilling, roasting, and rotisserie cooking in compact kitchen environments.

## Performance & Technical
