

Indoor Surveillance Camera with Two-Tone Design

This compact security camera features a circular design with a prominent lens at the center. The device is designed for indoor use and is capable of capturing video and audio.

Product Overview

Compact 360° Indoor Surveillance

This indoor surveillance camera features a unique two-tone circular design, blending seamlessly into modern interiors while providing comprehensive monitoring. Equipped with a 3MP panoramic lens, it delivers clear 1536x1536 resolution footage for effective security coverage. The device supports two-way audio and utilizes efficient H.264 compression, making it an ideal choice for reliable indoor monitoring.
