PRODUCT FEATURES

Available in different combination of colors

Available in multiple color combinations to match modern home decor.

High-Performance Indoor TV Antenna

This sleek, modern indoor antenna is engineered to enhance signal reception for both digital and analog broadcasts, including Full HD, UHF, and VHF signals. Designed to blend seamlessly into contemporary home decor, it offers a compact, low-profile solution for accessing over-the-air channels without the need for cable or satellite subscriptions. The unit features advanced technology to minimize interference from 4G LTE and 5G signals, ensuring a clear and reliable viewing experience.

Technical Specifications

Features optional external amplifier to boost signal strength and block LTE/5G interference.
