

Indoor TV Antenna for VHF and UHF Signals

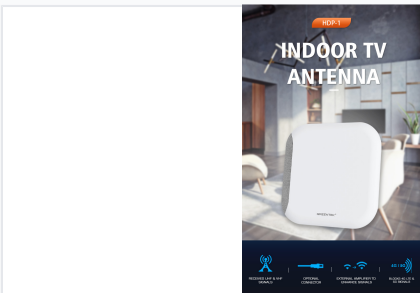

This indoor TV antenna is designed to receive both UHF and VHF signals. It provides access to over-the-air broadcast channels.

ADDITIONAL IMAGES

Overview

Designed to receive UHF and VHF signals with advanced interference blocking.

Modern aesthetic featuring a textured fabric front panel.

Modern Indoor Reception Solution

This indoor antenna is engineered to provide reliable access to over-the-air broadcast channels, supporting both VHF and UHF signals. Designed with a sleek, fabric-touch aesthetic, it blends seamlessly into contemporary home and office decor while delivering high-definition digital TV reception. The unit features built-in signal filtering to block 4G LTE and 5G interference, ensuring a clear viewing experience.
