

# Indoor TV Antenna with Extendable Antennas

This indoor antenna is designed to receive over-the-air digital TV signals. It features extendable telescopic antennas for optimal signal reception.

## Overview

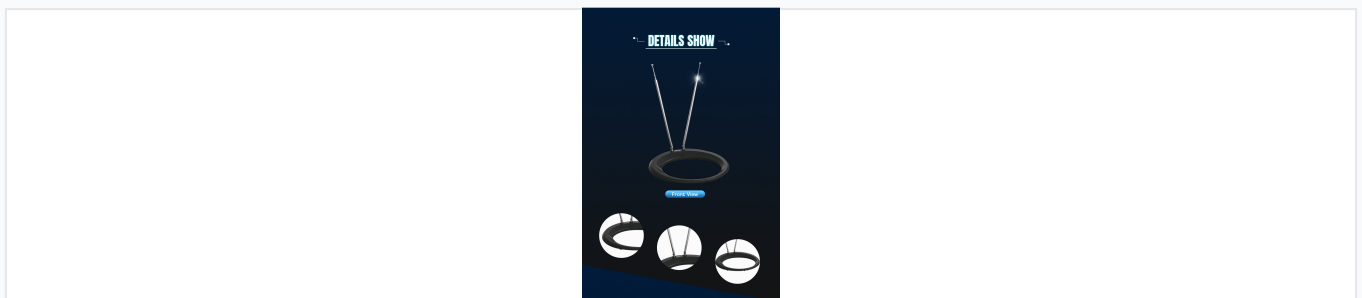

The ANT-120 features a modern, compact design suitable for any home environment.

### High-Performance Indoor Digital TV Antenna

This versatile indoor antenna is designed to capture over-the-air digital broadcasts, providing a cost-effective solution for high-definition television without monthly cable or satellite fees. Featuring a slim, fashionable geometrical design, it integrates seamlessly into modern home decors while offering flexible installation options including tabletop placement or wall mounting. Its advanced signal processing includes a built-in 4G LTE filter to ensure crisp, interference-free reception of both UHF and VHF signals.

## Technical Specifications

Sleek front profile with adjustable telescopic antennas.

### Dimensions

### Model

ANT-120

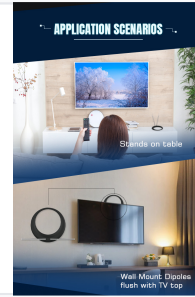

### Signal Reception

UHF, VHF, OTA (Over-The-Air), Digital TV

## Design & Features

Retractable dipoles and lay-flat UHF elements ensure maximum signal reception range.

Flexible mounting options: use the included stand for tables or mount it flush to the wall.

### Key Features

- Extendable telescopic dipoles for optimal VHF reception
- Lay-flat UHF element for wide-angle signal capture
- Integrated 4G LTE filter to block mobile signal interference
- Slim and fashionable geometrical design
- Wall-mountable or tabletop standing options

### Build & Finish

Property	Specification
Material	Plastic
Color	Black
Application	Household / Indoor

## Compliance & Standards

Fully compliant with international safety and environmental standards including CE and RoHS.

### Regulatory Compliance

CE • FCC • RoHS • RED • EMC • LVD • Prop65 • BSCI
