

# Indoor TV Antenna with UHF Loop

This indoor antenna is wall mountable and features a slim, geometric design. A traditional UHF metal loop is hidden within the design.

## Overview

### Versatile Indoor Digital TV Antenna

This indoor TV antenna features a slim and fashionable geometrical design, making it a stylish addition to any home entertainment setup. It is uniquely engineered as the only wall-mountable basic antenna in its class, while also offering a detachable base for stable tabletop placement. Equipped with a hidden traditional UHF metal loop and a built-in 4G LTE filter, it ensures clear reception of over-the-air digital signals by blocking unwanted mobile interference.
