

Indoor TV Antenna

This indoor TV antenna features a super slim flat panel. It has a glossy front panel and is wall mountable.

Product Overview

Compact TV Reception Solution

This slim indoor antenna is designed for reliable reception of digital, Full HD, UHF, and VHF broadcast signals. Its minimalist, high-gloss design integrates seamlessly into modern home decor, offering flexible installation via wall-mounting or tabletop placement. The unit effectively blocks 4G LTE interference to ensure clear, uninterrupted television viewing for a range of over-the-air channels.

Technical Specifications

Engineered with in-line amplification and 4G LTE signal filtering for superior broadcast clarity.
