

Indoor/Outdoor High-Resolution Security Camera

This security camera is designed for both indoor and outdoor surveillance. It features high-resolution imaging sensors and IR LEDs for enhanced night vision.

Overview

High-Performance Surveillance Solution

The MQ9A is a high-performance security camera designed for both indoor and outdoor surveillance. Featuring a robust weatherproof housing, it is equipped with high-resolution imaging sensors for capturing clear and detailed video footage. The camera incorporates infrared (IR) LEDs for enhanced night vision capabilities, ensuring round-the-clock monitoring.

Imaging Performance

Resolution	2MP 1080P
Lens Size	3.9 mm
Night Vision Distance	25 m
Compression Format	H.265

Technical Specifications

Power Input

12 V

Voltage

1 A

Current

Key Features

- Waterproof Housing
- Motion Detection
- Remote Viewing
- Local SD Card Storage

Internal Components

SSC325 • GC2053

Connectivity

4G, Wireless, Wi-Fi, Ethernet
