

Industrial Abrasive Grinding Wheel

This abrasive grinding wheel is designed for industrial applications. It is engineered for efficient material removal and surface finishing.

Overview

High-Performance Industrial Grinding

This industrial abrasive grinding wheel is engineered for efficient material removal and high-quality surface finishing across various metals and alloys. Designed for professional applications, it provides precise and consistent grinding performance even in demanding environments. The wheel is fully compliant with safety standards for high-speed operation, ensuring reliability and operator safety.

Performance Metrics

Operating Speed

80 m/s

Maximum Speed

Technical Details

Model Specification

42WA • XXR

Compatible Materials

Metals, Alloys

Application & Safety

Primary Applications

- Material removal
- Surface finishing
- Industrial grinding

Safety Compliance

Yes
