

Industrial AC Electric Motor

This electric motor is designed for various industrial applications. It features a durable construction with a finned housing for efficient heat dissipation.

Product Overview

Industrial AC Electric Motor

This robust industrial AC electric motor is engineered for reliable performance across a variety of demanding applications. Featuring a durable construction with a finned housing design, it ensures efficient heat dissipation for extended service life. This unit is an ideal choice for powering heavy-duty machinery and equipment where consistent output and durability are required.

Performance Metrics

Key Performance Metrics

0.75 kW

Power Output

1 HP

Horsepower

2830 r/min

Rotational Speed

1.8 A

Rated Current
