

Industrial AC Motor 500W 220V

This high-performance motor is designed for various industrial applications. Operating at 220V and 50Hz, it delivers 500W power and achieves a speed of 5000r/min.

Overview

Industrial High-Performance Motor

The SF-7645/4 is a high-performance industrial motor engineered for reliable operation in demanding environments. Delivering a nominal power of 500W and a top speed of 5000r/min, it is designed for precision and efficiency. Its robust construction makes it an ideal choice for various professional industrial applications.

Technical Specifications

| | |
|-------------------|-----------|
| Nominal Voltage | 220 V |
| Nominal Frequency | 50 Hz |
| Nominal Power | 500 W |
| Model Number | SF-7645/4 |

Performance Metrics

Performance Summary

| | | | |
|---------------------------------|----------------------------------|-------------------------------------|------------------------------------|
| 2.1 A Nominal Current | 0.9 N.m Nominal Torque | 4.05 N.m Max Torque Force | 5000 r/min Nominal Speed |
|---------------------------------|----------------------------------|-------------------------------------|------------------------------------|
