

Industrial Air Circulation Fan

This industrial fan is designed for high-volume air circulation. It features a durable metal frame and safety cage for use in industrial, commercial, and agricultural settings, providing ventilation and cooling.

Product Overview

Industrial Air Circulation Performance

This industrial wind machine is engineered for high-volume air circulation in demanding professional environments. Featuring a robust metal housing and frame, it ensures long-term durability and reliable performance. The unit is designed for versatile use across industrial, commercial, and agricultural sectors for cooling and ventilation needs.

Technical Features

Construction	Metal Frame, Robust Housing, Safety Cage
Blade Design	Multi-blade propeller

Application

Recommended Settings

- Industrial facilities
- Commercial warehouses
- Agricultural buildings

Primary Applications

Ventilation • Cooling • Air Movement
