

Industrial Air Compressor

This heavy-duty compressor is designed for industrial applications, delivering high pressure and consistent airflow. Its durable components ensure long-lasting reliability, making it suitable for demanding environments.

Product Overview

Industrial Air Compressor Performance

This heavy-duty industrial air compressor is engineered for demanding environments, delivering high pressure and consistent airflow for critical applications. Its robust construction and durable components ensure long-lasting reliability and operational stability. Designed with safety and efficiency in mind, it features user-friendly controls that simplify operation and routine maintenance for professional users.

Technical Specifications

Model Number	J21S-100A
Series	ZDM
Application	Industrial, Heavy-duty

Features

Key Features

- Robust construction
- High pressure output
- Consistent airflow
- Integrated safety features
- User-friendly control interface
