

Industrial Air Compressor

This compressor is designed for industrial applications. It features a robust frame and powerful motor for efficient air compression.

Product Overview

Industrial Air Compressor

This heavy-duty air compressor is engineered specifically for demanding industrial applications. It features a robust, durable frame and a large flywheel designed to ensure smooth, consistent operation under load. Equipped with a powerful motor, it provides efficient air compression suitable for powering pneumatic tools, operating heavy machinery, and supporting general workshop requirements.

Technical Specifications

Model Number	J21L-125
Series	ZDM

Key Features

Key Design Features	Heavy-duty Construction, Industrial Grade, Large Flywheel, High-Efficiency Motor
---------------------	--

Applications

Primary Applications

- Pneumatic tool operation
- Industrial machinery power
- Workshop air supply
