

Industrial Air Compressor

This high-performance compressor is designed for industrial applications. It features robust construction for durability and long-term reliability.

Overview

High-Performance Industrial Compressor

This industrial air compressor is engineered for demanding high-performance applications, ensuring robust construction for long-term reliability. It features advanced control systems designed to deliver precise operation while optimizing energy efficiency. Ideally suited for a wide range of metal forming processes, it provides consistent power for professional industrial environments.

Key Metrics

Performance Rating

100 Series

Capacity Class

Model Number

Y2H-100

Features

Design Focus

Industrial Grade, Energy Efficient, High Precision

Application

Suitable Applications

- Metal forming processes
- General industrial applications
