

Industrial Air Compressor

The LGV series industrial air compressor is a robust and efficient solution for various compressed air needs. Featuring a durable design and advanced control system, it ensures reliable performance and optimized energy consumption.

Product Overview

Robust Industrial Performance

The LGV series industrial air compressor is a robust and efficient solution for various compressed air needs. Featuring a durable design and advanced control system, it ensures reliable performance and optimized energy consumption. The compressor is equipped with a user-friendly interface for easy monitoring and adjustment of operating parameters. Its compact footprint and low noise levels make it suitable for diverse industrial environments.

Technical Specifications

Compliance

Euro Standard

Model Number

LGV37A

Key Features

High Air Delivery, Integrated Safety, Long Service Life, Low Noise, Compact Design
