

Industrial Air Compressor Unit

Industrial air compressor unit designed for heavy-duty applications. The compressor features a robust enclosure, an advanced control panel, and multiple connection points for efficient operation.

Overview

Heavy-Duty Industrial Performance

The Industrial Air Compressor Unit is engineered to deliver reliable performance in the most demanding industrial environments. Featuring a robust, protective enclosure and an advanced control panel, this unit is designed for seamless integration and efficient operation. Its multiple connection points ensure versatility for various heavy-duty applications.

Technical Specifications

Application

Heavy-Duty • Industrial

Model Series

LG350W-8

Features

Core Features

- Robust protective enclosure
- Advanced integrated control panel
- Multiple connection points
- Engineered for high reliability
