

Industrial Air Compressor Unit

This heavy-duty air compressor is designed for industrial applications. The multi-cylinder configuration features prominent gauges and control valves, mounted on a sturdy frame for stationary operation.

Product Overview

Industrial Air Compressor Series

These professional-grade air compressor units are designed for high-demand industrial environments. Engineered for reliability, these robust systems deliver consistent high-pressure performance required for heavy-duty applications. Each unit is built on a reinforced frame for stationary stability, ensuring durability and ease of integration into existing operations.

Performance Metrics

Operational Specifications

Model	Capacity (m3/h)	Pressure (kg/bar)	Power (kW)	Voltage/Freq	Speed (RPM)
HV1/140	68	30	16.3	380V/50HZ	975
HV2/200	177	30	35	440V/60HZ	1175
HV2/219	238	30	47	440V/60HZ	1150

In-Stock Quantity

1 set HV1/140 Units	1 set HV2/200 Units	2 sets HV2/219 Units
