

Industrial Air Conditioning Unit

This self-contained air conditioning unit is designed for industrial or commercial use. It features a durable metal housing with integrated cooling fins and a protective grille.

Product Overview

Industrial Cooling Solution

This robust, self-contained air conditioning unit is engineered specifically for demanding industrial and commercial environments. Featuring a durable metal housing with integrated cooling fins, it ensures efficient heat exchange and long-term reliability. The unit is optimized for external mounting, utilizing heavy-duty brackets to ensure secure installation even in challenging operational settings.

Physical Characteristics

Housing Material	Durable metal (aluminum/steel)
Mounting Type	External mounting
Installation Features	Heavy-duty brackets, Protective fan grille

Performance

Design Highlights

- Integrated cooling fins for heat exchange
- Self-contained design
- High-capacity compressor system
