

Industrial Air Cooler with 70L Capacity

This industrial air cooler delivers powerful cooling for large spaces. It features a high-capacity water tank, multiple fan speeds, and a portable design for versatile use.

Overview

Industrial-Grade Air Cooling Solution

This high-capacity industrial air cooler is designed for efficient climate control in spaces ranging from 40 to 60 square meters. Featuring a robust 100% copper motor and a 70L water tank, it delivers powerful airflow and long-lasting operation. With advanced controls including a 12-hour timer, remote operation, and automatic wide-angle oscillation, it provides a versatile and mobile cooling solution for warehouses, workshops, and large commercial areas.

Performance

Key Performance Metrics

12000 m³/h

Airflow Volume

280 W

Cooling Power

70 L

Water Capacity

Recommended Space

40-60 m²

Features

The industrial air cooler features a user-friendly touch screen and high-density water curtain for efficient cooling.

Key Features

- 100% copper motor
- 3 speed settings
- Touch screen control panel
- Remote control included
- 12-hour timer
- Automatic wide-angle blinds
- High-density water curtain
- Portable design with wheels

Included Accessories

2 ice boxes, Remote control
