

Industrial Air Curtain for Refrigeration

This industrial air curtain is designed for refrigeration and ventilation applications. It features a robust metal housing with adjustable settings for optimal performance in commercial and industrial settings.

Product Overview

Industrial Air Curtain Solution

This industrial-grade air curtain is specifically engineered for high-performance refrigeration and ventilation applications. The robust metal housing ensures durability in demanding commercial environments, providing effective temperature control and air circulation. Designed for versatility, the unit features adjustable settings to meet specific operational requirements.

Technical Specifications

Key Features

- Adjustable performance settings
- Air intake and exhaust grille
- Durable metal housing

Housing Construction	Robust Metal
Primary Applications	Refrigeration, Ventilation, Commercial, Industrial
