

Industrial Axial Fan with Wire Guard

This axial fan is designed with a protective wire guard and multiple blades for high-volume air movement. It is constructed with durable materials suitable for industrial applications, providing efficient cooling and ventilation.

Product Overview

Industrial Axial Fan Solution

This industrial axial fan is engineered for high-volume air movement in demanding environments. Featuring a robust design with a protective wire guard, it ensures both safety and efficiency for cooling and ventilation tasks. Its durable construction and corrosion-resistant finish make it a reliable choice for HVAC systems and heavy-duty industrial machinery.

Technical Specifications

Typical Applications

- HVAC Systems
- Industrial Machinery
- General Ventilation
- Cooling Systems

Construction Details

Durable Build • Industrial Grade • Black Finish

Design Features

Protective Wire Guard, High-Volume Airflow, Corrosion-Resistant Finish, Multi-Point Mounting
