

Industrial Axle Assembly for Garment and Shoe Machinery

This heavy-duty axle assembly is designed for industrial applications in garment and shoe manufacturing. It features dual wheel hubs for secure wheel attachment and is engineered for high load capacity.

Product Overview

Industrial Axle Assembly

This heavy-duty axle assembly is precision-engineered for demanding industrial applications within the garment, shoe, and accessory manufacturing sectors. It features a robust central housing with integrated mounting points and dual wheel hubs, ensuring stability and reliable performance under high load conditions. Designed for durability, the unit includes a corrosion-resistant black finish to withstand the rigors of continuous operation in production environments.

Technical Specifications

Design Features

- Robust central housing
- Integrated mounting points
- Dual wheel hubs
- Corrosion-resistant black finish

Key Performance Metrics

1 Heavy-duty
Load Capacity Rating

Mounting Configuration

Multi-lug bolt pattern • Integrated mounting

Suitable Industries

Garment Manufacturing, Shoe Production, Accessory Machinery
