

# Industrial Backflow Prevention Check Valve

This check valve is designed for industrial applications requiring reliable backflow prevention. The valve is engineered to provide minimal pressure drop while ensuring positive shutoff.

## Product Overview

### Industrial Backflow Prevention

This check valve is engineered for industrial applications that demand reliable backflow prevention and a long service life. Its robust construction ensures durability across various operating conditions while providing a positive shutoff to protect your systems. Designed for efficiency, the valve maintains a minimal pressure drop during operation, making it suitable for a wide range of fluid handling requirements.

## Performance Highlights

### Key Performance Metrics

**Positive**  
Shutoff Type

**Minimal**  
Pressure Drop

## Technical Specifications

Valve Type	Industrial Backflow Prevention Check Valve
Construction	Robust industrial-grade design
Fluid Compatibility	Suitable for a variety of fluids

## Compliance & Certifications

Visible Markings	C, E
------------------	------

## Service & Support

Technical Documentation	Specific material, pressure rating, and connection details available upon request
-------------------------	---
