

# Industrial Ball Valve

This ball valve is designed for reliable shut-off and flow control. It is suitable for various industrial piping systems.

## Overview

### Industrial Ball Valve Solutions

This industrial ball valve is engineered for reliable flow control and shut-off in demanding piping systems. Designed for durability, the valve features a robust body construction and a manual lever handle for precise operation. Available in a variety of material compositions, it is suitable for diverse high-pressure industrial applications.

## Material Options

### Available Material Types

- Cast Iron
- Carbon Steel
- Forged Steel
- Stainless Steel
- Brass

## Design Features

### Connection Type

Flanged

### Operation Method

Manual Lever Handle
