Overview

Industrial Butterfly Valve

This industrial butterfly valve is engineered for reliable flow control across a wide range of demanding applications, including water treatment, industrial processing, and chemical handling. Featuring a robust, customizable construction, it supports diverse media such as fresh water, sea water, steam, oils, and even food-grade or medical applications. Its versatile design allows for operation within a broad temperature range and multiple pressure ratings, making it a dependable choice for fluid management systems.

Technical Specifications

Working Temperature

-15 °C
Min Temp

150 °C
Max Temp

Nominal Diameter (DN)

DN40 - DN1000

Nominal Pressure

PN10 / PN16

Suitable Mediums

Fresh Water, Sea Water, Air, Steam, Food, Medicine, Oils, Sewage

Materials

Material Composition

Component	Material Options
Body	Cast iron, Ductile iron, Aluminum bronze, Stainless steel, Carbon steel
Disc	Ductile iron, Aluminum bronze, Stainless steel, Carbon steel
Stem/Shaft	Stainless steel, Carbon steel
Rubber Gasket	EPDM, NBR, VITON, PTFE
