

Industrial Button Sewing Machine for Apparel

This industrial button sewing machine is designed for garment, shoe, and accessory manufacturing. The robust machine ensures precise and efficient button attachment, enhancing productivity and quality in apparel and textile production environments.

Overview

High-Efficiency Button Attachment

This industrial button sewing machine is engineered for high-volume manufacturing environments, specifically serving the apparel, footwear, and accessory sectors. It provides precise and consistent button attachment, significantly improving production throughput and stitch quality. Designed for durability and performance, this machine is an essential asset for modern textile production lines seeking to optimize their finishing processes.

Technical Specifications

Suitable Applications

- Apparel Manufacturing
- Shoe Production
- Accessory Manufacturing

Model Number	BS-373
Certifications	CE
