

Industrial Ceiling Fan with Light

This industrial ceiling fan features three blades for optimal airflow. It includes a central light fixture encased in a decorative housing with metallic trim.

Product Overview

Industrial-Grade Airflow and Lighting

This industrial ceiling fan is engineered for performance and reliability in professional environments. Featuring a robust three-blade design, it ensures optimal air circulation while integrating a central light fixture for dual-purpose functionality. Its versatile downrod mounting system makes it an adaptable solution for various ceiling heights, combining industrial durability with a clean, neutral aesthetic.

Design & Construction

Number of Blades	3
Mounting Style	Downrod
Finish	Neutral metallic finish

Features

Integrated Light	Yes
Recommended Applications	Commercial, Industrial, Warehouse, Workshop
