

Industrial Centrifugal Pump

This centrifugal pump is designed for industrial applications. It features a heavy-duty construction with a cast iron casing and impeller for durability and resistance to wear.

Product Overview

Industrial Centrifugal Pump

This robust centrifugal pump is engineered for demanding industrial environments, featuring heavy-duty construction with a cast iron casing and impeller for exceptional durability and wear resistance. It comes pre-coupled with a high-efficiency electric motor, ensuring reliable operation across various fluid handling tasks. Designed for versatility, this unit is an ideal solution for water transfer, pressure boosting, and circulation systems.

Technical Specifications

Construction Material	Cast Iron (Casing and Impeller)
Suitable Applications	Water Transfer, Pressure Boosting, Fluid Circulation

Performance Features

Core Features

- Heavy-duty industrial design
- Wear-resistant impeller
- Integrated electric motor
- Reliable operation
